

# TIP HOLDER M6 SX-36 2Un

Ref.05941

❓ The **Solter M6 SX-36 Contact Tip Holder** is the essential accessory to maintain a secure connection and constant gas flow in your SX-36 MIG/MAG torches. Made of high-quality copper, it ensures excellent thermal resistance and durability under demanding conditions. Its M6 thread design allows for easy and secure installation. Optimize your welds with reliable Solter components!

## Key Features:

- ❓ **Guaranteed stability:** Securely holds the contact tip in place, preventing movement and ensuring clean, precise welds.
- ❓ **Perfect compatibility:** Specifically designed for SX-36 MIG/MAG torches, ensuring a perfect fit with no need for adjustments.
- ❓ **High-quality material:** Made of **copper**, it offers excellent conductivity and high-temperature resistance, ideal for extended use.
- ❓ **Constant gas flow:** Enables even distribution of shielding gas, resulting in superior welding performance.
- ❓ **M6 thread – 28.5 mm length :** Exact dimensions allow for quick and hassle-free integration.
- ❓ **Convenient format:** Includes **blister pack of 2 units**, ideal for maintenance and easy replacement without waste.
- ❓ **Trust Solter for precise, safe welding with professional finishes on every project.**
