

FEMALE CONECTOR 35/50 2U

Ref. 05946

🔍 The **FEMALE AIR CONNECTOR 35/50 2U** by Solter is an essential accessory for welding operations, ensuring a secure and stable electrical connection at all times. Designed for universal compatibility with **Dinse 35/50-type connections**, this connector supports up to **300A with a 60% duty cycle**, guaranteeing optimal performance in demanding applications. Made from high-conductivity brass, high-temperature resistant plastics, and advanced thermal insulators, it provides maximum safety, durability, and wear resistance. Upgrade your welding equipment with the quality and reliability of Solter!

Main Features:

- 🔍 **Universal compatibility:** Female Dinse 35/50 connection, suitable for a wide range of welding equipment.
- 🔍 **High current capacity:** Supports up to **300A with a 60% duty cycle**, ideal for intensive work.
- 🔍 **Exceptional durability:** Made from high-conductivity brass, resistant to corrosion and wear.
- 🔍 **Guaranteed safety:** High-temperature resistant plastics and advanced insulators to prevent overheating.
- 🔍 **Pack of 2 units:** Secure storage and convenient transport in a **2-unit blister pack**.
- 🔍 **Meets quality standards:** Manufactured under strict safety regulations, ensuring reliability with every use.
- 🔍 Backed by Solter's guarantee, every connection is a synonym for safety and performance. Equip yourself with the best for your welding projects!
