

MALE CONNECTOR 10/25 2Un

Ref. 05947

Dinse Male Air Connector 10/25 2 Units by Solter is designed to meet the needs of professional welders seeking secure and efficient electrical connections. Manufactured with high-quality materials, it offers durability, optimal performance, and compliance with safety standards.

Key Features:

- **Cable Compatibility:** Supports sections from 10 mm² to 25 mm², accommodating smaller gauge cables.
- **Current Capacity:** Ideal for medium-intensity tasks, suitable for applications that do not require high amperage.
- **Robust Construction:** Made of high-conductivity brass with thermal insulation, ensuring safe handling and extending its service life.
- **Universal Dinse Connection:** Compatible with MIG/MAG and MMA welding equipment.
- **Packaging:** Blister pack of 2 units for safe storage and transport.
- **Materials:**
 - Brass: Provides high electrical conductivity, corrosion resistance, and durability under demanding conditions.
 - High-temperature resistant plastics: Used for the housing and insulation, ensuring thermal stability and wear resistance.
 - Thermal insulators: Provide an additional safety barrier, preventing overheating and ensuring safe handling.

Proper maintenance of the connector is essential to ensure a stable electrical connection and optimal performance in every weld. Trust Solter's high-quality products to guarantee maximum durability and efficiency for your equipment, available through our network of official distributors.
