

# WELDING PICKAXE WOODEN HANDLE **SOLTER**

Ref. 06003

❓ The **Steel Pick with Wooden Handle** by Solter is an indispensable tool for cleaning and inspecting welding seams. Its durable steel head effectively removes slag and metal residues, while its wooden handle provides an ergonomic grip and reduces vibrations, ensuring comfort during use. Designed with a pointed end for hard-to-reach areas and a chisel-type end for broader surfaces, it is the perfect complement for demanding welders. **Optimize your work with Solter quality!**

## Main Features:

- ❓ **High-Strength Material:** Steel head designed to effortlessly remove slag and residues.
- ❓ **Ergonomic Handle:** Made of wood, providing a comfortable grip and reducing vibrations.
- ❓ **Versatile Design:** Pointed end for reaching difficult areas and chisel-type end for broader surfaces.
- ❓ **Guaranteed Durability:** Sturdy construction ensures a long lifespan in demanding environments.
- ❓ **Easy storage:** Blister packaging for greater protection and convenient transport.
- ❓ **Trust Solter for tools designed for precision and professional performance.**
