

TORCH 4M TIG SR-17V D10/25

Ref. 06024

❓ The **TIG Torch SR-17V D10/25** is the ideal choice for welders seeking the perfect balance of **precision, versatility, and absolute control** in every job. With its integrated **manual valve**, it allows the management of shielding gas flow directly from the torch, providing **total autonomy for equipment without automatic regulation**. Its ergonomic design and 4-meter cable ensure maximum comfort and maneuverability, guaranteeing an efficient and unrestricted welding experience. Additionally, its capacity of up to 140A with a 60% duty cycle makes it a reliable tool for medium and high-demand applications. Optimize your performance with the quality and reliability of Solter!

Main Features:

- ☑ **Integrated manual valve:** Allows precise control of the shielding gas directly from the torch, without the need for additional systems. **Ideal for welding equipment without automated regulation.**
- ☑ **DINSE 10-25 Connector:** Ensures a **stable and efficient connection** with compatible welding equipment, optimizing current transmission for consistent performance.
- ☑ **4-meter cable length:** Increased **mobility and accessibility** in the work area, making welding easier in large or hard-to-reach spaces.
- ☑ **Capacity of up to 140A at a 60% duty cycle:** Designed to withstand long working hours without overheating, ensuring **precise and consistent welds** in direct current (DC).
- ☑ **4-meter gas hose:** Ensures a constant and uninterrupted gas flow, improving arc quality and guaranteeing a **clean and contamination-free weld**.
- ☑ **Ergonomic and durable design:** Its handle is designed to provide a **comfortable and secure grip**, reducing fatigue during prolonged work sessions. Made with high-quality materials for **greater durability and thermal resistance**.
- ☑ Trust Solter to provide tools designed for maximum performance, precision, and safety in every weld.

TORCH 4M TIG SR-17V D10/25

Ref. 06024

TECHNICAL DATA

OPTIONAL ACCESSORIES

Generals	
Duty Cycle at 40°C	140A
Product Code	06024
Use	Welding

Structural	
Dimensions	4 metros
