

# CONJ. 3m Cu35mm 35-50 EARTH CLAMP 400 SOLTER

Ref.06114

**Set with Ground Clamp 3m Cu 35mm<sup>2</sup> 35-50 400A** by Solter. This accessory, designed to offer maximum reliability and durability, features a **35 mm<sup>2</sup>** copper cable measuring **3 meters**, ensuring excellent conductivity and resistance. With a standard **Dinse 35-50 mm** connector and a **corrosion-resistant brass clamp**, it provides a secure and efficient connection. Its capacity of up to **400A** makes it ideal for high-intensity applications. Ensure the best performance in every welding task with Solter!

## Key Features:

- 🔍 **Optimal Reach:** 3-meter cable provides excellent mobility and ease of maneuvering, even in tight spaces.
- 🔍 **High Conductivity:** Made of 35 mm<sup>2</sup> copper, ensuring efficient current transmission and minimizing energy loss.
- 🔍 **Universal Connector:** Dinse 35-50 mm type, compatible with a wide range of welding equipment for quick and secure installation.
- 🔍 **Power and Durability:** Supports up to 400A, making it ideal for demanding welding tasks and industrial use.
- 🔍 **Durable Clamp:** Made of high-quality brass, offering excellent corrosion resistance and a stable, long-lasting electrical connection.
- 🔍 **Regulatory Compliance:** Certified under EN 60974-13 standards, ensuring the highest levels of safety and performance.

Proper maintenance of the ground clamp set ensures a stable connection and optimal performance in every welding task. Having a spare set prevents interruptions and extends the lifespan of your tools.

Trust Solter to take your welding to the next level!

"Proper maintenance of the ground clamp set is essential to ensure a stable electrical connection and optimal performance in every weld. Having a spare part on hand guarantees workflow continuity and prevents interruptions caused by wear and tear."
