

CERAMIC CUP SR-17/26/18 GR6 D9,5 (2u.) SOLTER

Ref. 06201

❓ The Solter GR6 D9.5 Ceramic Nozzle ensures excellent shielding gas coverage in TIG welding, ideal for a stable and consistent arc. Its 9.5 mm diameter provides greater gas diffusion, making it perfect for broader welds or demanding materials. Made from high-quality ceramic, it resists high temperatures and spatter. Compatible with TIG torches SR-17, SR-26, and SR-18. Blister pack with 2 units for added convenience. Boost the quality of your welds with Solter!

Principales Características:

❓ **Enhanced gas diffusion:** With its 9.5 mm diameter, this GR6 nozzle provides broader coverage, ideal for wide beads or thicker materials.

❓ **Professional-grade resistance:** Made of high-density ceramic that maintains its integrity against heat and spatter.

❓ **Compatible torches:** Suitable for TIG models SR-17, SR-26, and SR-18 with no additional accessories required.

❓ **Technical dimensions:** 46x0.8x21 mm and M8 thread, ensuring a secure fit with no gas leakage.

❓ **Functional pack:** Blister pack with 2 units for fast and efficient replacement in any work environment.

❓ Solter delivers solutions designed to last. With this GR6 nozzle, your TIG processes gain efficiency, control, and superior finish quality.
