

CERAMIC CUP SR-17/26/18 GR8 D12,5 (2u.) SOLTER

Ref. 06202

❓ The **Solter GR8 D12.5 Ceramic Nozzle** is ideal for TIG welding jobs that require extra-wide gas coverage. Its 12.5 mm diameter allows for a uniform flow that effectively protects the arc and weld pool, especially useful for large parts or sensitive materials. Made from high-density ceramic, it offers excellent thermal resistance. Compatible with TIG torches SR-17, SR-26, and SR-18. Comes in a 2-unit blister pack. Boost your results with the precision and reliability of Solter!

Main Features:

- ❓ **Extra-wide coverage:** With a 12.5 mm diameter, this GR8 nozzle ensures generous shielding gas diffusion—ideal for TIG welding on large areas or critical materials.
- ❓ **Premium material:** High-density technical ceramic that maintains its integrity even under extreme temperature conditions.
- ❓ **Guaranteed compatibility:** Designed for TIG torches SR-17, SR-26, and SR-18, with M8 thread for a stable and secure fit.
- ❓ **Standard dimensions:** 46x0.8x21 mm, perfect for hassle-free installation and consistent results.
- ❓ **Practical packaging:** Includes 2 units per blister, making on-the-spot replacement easy in any work environment.
- ❓ At Solter, every consumable is designed to deliver efficiency and reliability. The GR8 gives you greater control for more demanding applications.
