

CERAMIC CUP SR-17/26/18 GR5 D8 (2u.) SOLTER

Ref. 06343

GR5 D8 Ceramic Nozzle (2 pcs) by Solter:

Specifically designed to precisely direct the shielding gas in TIG welding processes, ensuring uniform coverage of the molten metal and the electrode. Made from high-density ceramic, it offers outstanding resistance to heat and spatter, guaranteeing optimal performance in demanding environments. Its 8 mm diameter makes it compatible with standard TIG torches. Includes a blister pack of 2 units for added convenience.

Optimize your welds with Solter's superior quality!

Main Features:

-  **Precise Coverage:** Keep your welds clean and contamination-free thanks to efficient shielding gas distribution.
-  **Durable Material:** Its high-density ceramic withstands extreme temperatures without losing efficiency.
-  **Universal Compatibility:** Perfect for standard TIG torches thanks to its 8 mm diameter.
-  **Optimal Dimensions:** 46x0.8x21 mm to ensure a secure fit and consistent results.
-  **Convenient Packaging:** Blister pack of 2 units for quick, uninterrupted replacement.
-  **M8 Thread:** Ensures stability in every weld, reducing the need for constant adjustments.
-  With Solter, enjoy reliable performance that lets you focus on what truly matters: perfect results.
