

CERAMIC CUP SR-17/26/18 GR7 D11 (2u.) SOLTER

Ref. 06344

❓ The Solter GR7 D11 Ceramic Nozzle is designed to provide optimized gas coverage in TIG welding processes. Its 11 mm diameter enhances arc stability and improves protection of the weld pool in wider welds. Made from high-density ceramic, it resists thermal wear and spatter. Compatible with SR-17, SR-26, and SR-18 torches. Available in a 2-unit blister pack. Want consistent results in demanding welds? Trust Solter and upgrade your consumable!

Main Features:

- ❓ **Wide gas coverage:** With an 11 mm diameter, this GR7 nozzle ensures efficient gas distribution for TIG jobs that require greater shielding volume.
- ❓ **Proven durability:** High-density technical ceramic withstands intensive working conditions and high temperatures.
- ❓ **Fully compatible:** Designed for TIG torches SR-17, SR-26, and SR-18, it ensures a perfect fit with M8 thread.
- ❓ **Standard technical dimensions:** 46x0.8x21 mm, ensuring a secure fit without wobbling or leaks.
- ❓ **Practical pack:** Includes 2 units, ideal for keeping spares ready during continuous work.
- ❓ At Solter, we understand what professionals need: reliable, high-quality consumables designed to perform at their best from the very first use.
