

# CUTTING TIP SHORT 0,65 10-20A PT20C/60 2u SOLTER

Ref. 55972

❓ The 0.65 mm short nozzle for PT60 torches is ideal for precise cuts in the 10 to 20 amp range. Its compact design allows superior control in tight spaces and detailed work. Made from high-conductivity materials, it ensures arc stability and greater durability. Compatible with plasma cutting processes, it offers an excellent balance between performance and precision. Includes 2 units.

Need professional results in every pass? Add it to your cutting setup now and optimize your work!

## Main Features:

- ❓ **Compact design for precision cuts:** Its short format allows easier maneuvering in confined areas and improves arc control during delicate cuts.
- ❓ **0.65 mm diameter and 10-20A range:** Ideal for fine work requiring high detail and stable electric arc performance.
- ❓ **Compatible with PT60 torches:** Specifically designed to integrate with these commonly used torches in plasma cutting processes.
- ❓ **High-quality conductive material:** Ensures uniform plasma distribution and reduced wear, extending the component's lifespan.
- ❓ **Includes 2 units:** Pack designed for continuous use and immediate replacement availability.
- ❓ **Recommended applications:** Ideal for cutting thin sheets, high-detail work, industrial maintenance, or fine adjustment tasks.
- ❓ **Easy installation:** Its precise fit allows quick replacement without special tools, reducing downtime.
- ❓ **Trusting Solter means choosing safety, quality, and technical support** at every stage of your work. This consumable has been tested under demanding conditions and validated by industry experts.
