

CUTTING TIP SHORT 0,9 30-40A PT20C/60 2u SOLTER

Ref. 55982

❓ The 0.9 mm short nozzle for PT60 torches is designed for medium-intensity cuts in the 30 to 40 amp range. Its compact size ensures greater precision in demanding cuts and a stable plasma arc in repetitive work. Made from heat-resistant, high-conductivity materials, it extends the lifespan of the cutting system. Ideal for industrial processes requiring clean and defined results. Includes 2 units.

Want to improve efficiency without sacrificing detail? Choose professional quality with Solter!

Main Features:

- ❓ 0.9 mm diameter, 30–40A range: Designed for more demanding cuts, offering stability and power suited for thicker sheets.
- ❓ Short format: Ideal for precise maneuvers in complex cuts or hard-to-reach areas.
- ❓ Compatibility with PT60 torches: Adaptable to one of the most widely used torches on the market, ensuring easy replacement and availability.
- ❓ Durable, high thermal performance material: Withstands high temperatures without deformation, maintaining performance during prolonged cuts.
- ❓ 2-unit pack: Perfect for operators who need uninterrupted workflow.
- ❓ Ideal applications: Cutting medium structures, metal fabrication, industrial maintenance, and work on carbon and stainless steel.
- ❓ Easy replacement: Quick change without special tools, designed to reduce downtime during cutting operations.
- ❓ At Solter, every piece is precision-engineered and tested in industrial environments. This nozzle ensures reliable performance for demanding tasks, preserving both cut quality and system longevity.
