

BRUSH PICKAXE

Ref. 06774

❓ The **Solter Pick Hammer Brush** is the ideal tool for removing rust, paint, and debris from metal surfaces. Its curved design, combined with high-quality brass-coated steel bristles, allows for deep cleaning without damaging the material's structure. Equipped with a **durable ergonomic plastic handle**, it provides a secure and comfortable grip, reducing fatigue during extended use. Perfect for welders, blacksmiths, and industrial maintenance professionals. Optimize your cleaning processes with Solter quality! Steel bristle brush.

Main Features:

- ❓ **Brass-coated steel bristles:** High resistance for efficient cleaning without damaging surfaces.
- ❓ **Ergonomic plastic handle:** Comfortable, non-slip design for better control and reduced effort.
- ❓ **Curved design:** Facilitates access to hard-to-reach areas, enhancing work precision.
- ❓ **Optimized dimensions:** Total length of 24 cm with 1.5 cm bristles to cover wide areas.
- ❓ **Versatile use:** Ideal for removing rust, paint, and debris from steel, iron, and other metals.
- ❓ **Guaranteed durability:** High-quality materials ensure a long service life.
- ❓ Trust **Solter** for tools designed to deliver performance and precision in every application.
