

INVERCAR 15000

Ref. 10068

❓ The **INVERCAR 15000** is a smart charger for **12V/24V** with a capacity of **15A at 12V** and **7.5A at 24V**, designed for **batteries up to 400Ah at 12V** and **200Ah at 24V**. It is compatible with **Lead-Acid, AGM, Gel, and Lithium-Ion batteries**, making it a versatile option for **professional workshops, industrial vehicles, and heavy machinery**. Its advanced **8-stage charging technology** allows it to **diagnose, recover, charge, and maintain batteries in optimal condition**, ensuring long-lasting and safe performance. Solter offers you advanced charging technology to keep your batteries in top condition with total safety and efficiency.

Main Features:

- ❓ **Smart 8-stage automatic charging:** analyzes the battery, **activates desulfation if necessary**, and manages the entire process of **charging, absorption, and maintenance**, ensuring **safety and extended battery life**.
- ❓ **Automatic charging memory:** In case of a **power outage**, the charger **automatically resumes the process** from where it left off.
- ❓ **Battery repair mode:** allows **recovery of sulfated or inactive batteries** by applying a special charging cycle to attempt to restore their original charging capacity.
- ❓ **Compatibility with 12V and 24V batteries:** Works with **Lead-Acid, AGM, Gel, and Lithium-Ion batteries** (including LiFePO4), making it suitable for industrial vehicles and heavy machinery.
- ❓ **IP54 Protection:** **Dust and splash-resistant design**, suitable for workshops, transport fleets, and demanding environments.
- ❓ **Intuitive LED indicators:** the front panel displays the **battery charge level**, the selected mode, and any potential anomalies, **providing quick and precise visual control**.
- ❓ **Automatic desulfation:** **Recovers sulfated batteries** with a special program of up to 5 hours to help **restore their charging capacity**.
- ❓ **Compact and easy to use:** with dimensions of 365 x 70 x 123 mm and a weight of 1,445 g, its robust and lightweight design makes it ideal for portable use in workshops and fleets.
- ❓ Choose Solter, the brand trusted by professionals for precise, safe, and efficient battery maintenance.

INVERCAR 15000

TECHNICAL DATA

OPTIONAL ACCESSORIES

Technical

Voltaje de carga	12/24V
Corriente de carga Arith.	12VDC; 15/20A; 24VDC 7,5A; Temperature controlled
Carga de mantenimiento max.	Todas las baterías.
Capacidad de carga max.	2 - 400Ah (12V); 2 - 200Ah (24V)
Tipo batería	Todos los tipo de baterías de 12 y 24V.

Structural

Regulation board	Digital 8 pasos - Full automatic
Dimensions	365x70x123

Electrical

Supply Voltage	220-240VAC 50/60Hz
