Low TIG Ready

is the maximum exponent of ocular protection for the most demanding welder. Everything, without diminishing productivity since they incorporate vanguard technological solutions.

True color

Protective ADF filter with TrueColor technology, which allows you to see true colors during the welding process, increasing clarity and giving a sense of real 3D vision.

CE 1/1/1/1

High quality filter

Maximum filter quality 1/1/1/1. Optical quality: 1 / Light diffusion: 1 / Transmission capacity and light variation: 1 / Reaction and light transmission according to the projection angle

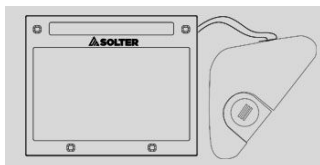

Large view

Large viewing area 100x60mm.

Ergonomics

Ergonomic harness with 4 support points.

High sensitivity

4 sensors, avoiding dark areas and the filter opening during the process.
