

# COURTAIN 1800 x 1400 GREEN

Ref. 10077

❓ The **Green Welding Curtain 1800 x 1400** from Solter is designed to **isolate the work area and filter electromagnetic radiation from ultraviolet (UV) to infrared (IR)**, reducing risks for operators and nearby personnel. **Made of high-strength PVC**, with a **thickness of 0.35 mm and shade 6** it provides optimal protection against welding glare and intense reflections. Additionally, its **self-extinguishing material prevents fire spread**, ensuring a safer work environment. It complies with **UNE-EN ISO 25980:2015 and EN 1598 standards**, guaranteeing certified safety. In welding environments, exposure to intense light and incandescent projections can cause **vision risks, burns, and distractions in the work area**.

## Main Features:

- ❓ **Risk of eye and skin damage from UV and IR radiation:** The curtain filters intense light from the UV to IR spectrum, reducing its impact on vision and preventing skin burns.
- ❓ **Incandescent projections that can cause fires or injuries:** Its self-extinguishing and combustion-resistant material minimizes the risk of accidents caused by sparks.
- ❓ **Excessive glare and reflections in welding areas:** Its shade 6 green reduces welding glare, enhancing visual comfort and minimizing eye strain.
- ❓ **Work environments with distractions and lack of visual boundaries:** Its design allows the creation of safe and visible barriers, separating welding areas from the rest of the workshop.
- ❓ **High-strength and durable material:** Made of 0.35 mm PVC, this curtain ensures a long lifespan, withstanding continuous use without losing its protective properties.
- ❓ **Difficulty in installation and adaptation to different spaces:** With dimensions of 1800x1400 mm, it easily mounts on standard structures, allowing quick adjustment according to the operator's needs.
- ❓ **With Solter, you ensure a safer, more efficient welding environment that complies with international standards.**

# COURTAIN 1800 x 1400 GREEN

Ref. 10077

## TECHNICAL DATA

Generals	
Regulations	UNE-EN ISO 25980:2015, UNE-EN 1598:2012
Product Code	10077

Structural	
Dimensions	1800x1400mm
Material	PVC alta Resistencia

## OPTIONAL ACCESSORIES

Ref. 06036

### HOOK COURTAIN
