

HELMET INACTINICA CABEZA

Ref. 10282

Lightweight welding helmet with hinged front.

- Filter dimensions 108 x 50 mm
- Field vision 95 x 40 mm
- DIN 11

It is designed to provide effective protection against radiation emitted during welding processes, as well as against incandescent particles that may be released during welding.

Es resistente a los impactos de partículas a alta velocidad y baja energía. Gracias a su arnés regulable se adapta perfectamente a la morfología de cualquier usuario.
