

# LITHIUM LT-35 12V Pro

Ref. 10412

❓ The **LITHIUM LT-35 12V PRO** by Solter is the ultimate jump starter for **gasoline and diesel vehicles of any engine size**, including cars, trucks, and construction machinery. With its **32,000 mAh (118.4 Wh) battery** and a current of **600A (1,500A peak)**, it ensures instant start even in **extreme conditions**. Its **compact and lightweight design** makes it easy to transport, while its **advanced safety systems** protect both the user and the vehicle. Additionally, its **Powerbank function** allows charging of electronic devices through **fast-charging USB ports**.

Energy and confidence in any situation!

## Main Features:

- ❓ **Power for any vehicle:** Starts cars, vans, trucks, and heavy machinery, even in extreme temperatures.
- ❓ **High-capacity battery:** With **32,000 mAh (118.4 Wh)**, it allows up to **30 starts on a single charge**, making it ideal for intensive use.
- ❓ **Fast charging and Powerbank:** Equipped with **USB-C and Quick Charge (5V 3A, 9V 2A, 12V 1.5A)**, allowing you to recharge smartphones, tablets, and other electronic devices.
- ❓ **Recharge in 8 hours:** Full charge time of **8 hours**, ensuring constant availability.
- ❓ **Compact and lightweight design:** Dimensions of **266x251x102 mm** and a weight of only **2.6 kg**, making it easy to transport and store.
- ❓ **Advanced safety:** Protection against **reverse polarity, short circuits, and power surges**, preventing damage to both the vehicle and the jump starter.
- ❓ **BOOST mode for discharged batteries:** A special function that provides an **extra boost** to start vehicles with a **low battery charge**.
- ❓ **Multifunction LED lighting:** Features a **work LED light** with **three modes**: normal, strobe, and SOS, ideal for emergencies or working in low-light conditions.
- ❓ **Durable and resistant materials:** Robust construction with a **high-strength casing**, designed to withstand **impacts, dust, and extreme conditions**.
- ❓ **Extended autonomy:** Retains charge for up to **6 months without use**.
- ❓ Solter offers you the highest reliability in jump starters, ensuring you're always ready for any unexpected situation.

## TECHNICAL DATA

## OPTIONAL ACCESSORIES

### Technical

Batería	32000mAh
Salidas auxiliares	5V 1A; 5V 2,1A; 12V 10A
Tipo batería	LiCoO2
Voltaje de arranque	12V
Capacidad de arranque	1500A
Motor recomendado	Gasolina/Diésel (todas las cilindradas)
Tipo conector de carga	USB

### Structural

Dimensions	266x251x102
Weight	2,6kg

### Electrical

Tiempo de carga 0-100%	8 h
