

LITHIUM LT-56 12/24V Pro

Ref. 10413

❓ The LITHIUM LT-56 12/24V PRO from Solter is a professional-grade battery booster, ideal for mechanic workshops, industrial vehicle fleets, and roadside assistance. Thanks to its powerful 56,000 mAh (207.2 Wh) lithium battery and its starting capacity of up to 2000A, this unit ensures the immediate ignition of cars, trucks, heavy machinery, and public works equipment, even in extreme conditions.

With a robust construction and advanced protection technology, the LT-56 is the ultimate solution for professionals who need a reliable, safe, and versatile booster in their daily operations. Power, reliability, and advanced technology for starting any vehicle.

Main features:

- ❓ **Powerful 56,000 mAh (207.2 Wh) lithium battery:** Provides energy for multiple starts with fewer recharges, optimizing usage time and efficiency.
- ❓ **Compatibility with 12V and 24V:** Ideal for cars, trucks, machinery, and construction equipment, adapting to different vehicle types and electrical systems.
- ❓ **Starting capacity of up to 2000A:** Designed to start diesel and gasoline engines of all displacements, including heavy-duty vehicles with high electrical demands.
- ❓ **Optimized recharge in just 4 hours:** Its battery fully charges in no time, allowing continuous use without prolonged interruptions.
- ❓ **Compact and lightweight design:** With dimensions of 250 x 188 x 149 mm and a weight of only 2.8 kg, it is easy to transport and store in workshops or roadside assistance vehicles.
- ❓ **Stored charge for up to 6 months:** Thanks to its energy self-preservation technology, it allows for extended storage without loss of charge, ensuring availability in emergencies.
- ❓ **Total protection:** Equipped with safety systems against reverse polarity, overloads, short circuits, and voltage spikes, ensuring safe use in any situation.
- ❓ **Powerbank function for work equipment:** Its high-capacity battery allows you to charge essential electronic devices, ensuring operation anytime, anywhere.
- ❓ **Designed to deliver maximum reliability in demanding professional environments,** the LT-56 is the ideal tool for workshops, roadside assistance services, and companies with industrial vehicle fleets.

LITHIUM LT-56 12/24V Pro

Ref. 10413

TECHNICAL DATA

OPTIONAL ACCESSORIES

Technical	
Batería	56000mAh
Motor recomendado	Gasolina/Diésel (todas las cilindradas)
Salidas auxiliares	5V 2,1A; 5V 3A; 9V 2A; 12V 1,5A, 15V 10A
Tipo batería	LiCoO2
Voltaje de arranque	12/24V
Capacidad de arranque	2000A
Tipo conector de carga	Specific (29V/2A)

Structural	
Dimensions	250x188x149
Weight	2,8KG
