

EXTRACTOR SOLVAC IND 1500

Ref. 10423

Industrial extractor (Vacuum cleaner) of welding fumes. Accessories included.

The mobile and compact mobile filtration unit for welding fumes SOLVAC IND 1500 has been studied for use in the presence of low concentrations of fumes and dust, it's equipped with a motor with a suction power of 1400 m³/h, with a flexible suction arm 3 meters long and 150mm in diameter, making this arm the most manageable of its category in terms of movement and ease of positioning. Filter dirt level can be checked by means of an hour meter, which guarantees high safety of use in relation to the 12m² filter cartridge.

- Easy to place for direct extraction at the emission smokes source.
- Compact and easy to handle.
- Integrated 3 meter flexible suction arm.
- Simple and fast maintenance of the system.

EXTRACTOR SOLVAC IND 1500

Ref. 10423

TECHNICAL DATA

OPTIONAL ACCESSORIES

Technical	
Motor type	Ventilator
Motor max power	1,5 Hp
Maximum depression	12,5mBar
Maximum air flow	1400 m3/h
Noise level	72 dB(A)

Structural	
Dimensions	700x750x900mm
Weight	80 kg

Electrical	
Supply Voltage	400V - 3ph

Ref. 30682
