

PLASMA SOLCUT 5000K PFC

Ref. 10351

Inverter PFC equipment for plasma cutting with compressed air. It provides a very stable cutting arc.

**With torch, compressor, cable and ground clamp included*

Main features:

- 30A power at 100%
- 230V - 1ph connection
- Automatic torch cooling
- Incorporates an air compressor for autonomous operation
- Clean cut up to 6mm
- Maximum cut up to 8mm
- Cutting of various metals and alloys
- Can be used with an extension of the power cable

PLASMA SOLCUT 5000K PFC

Ref. 10351

TECHNICAL DATA

Generals	
Regulation	10 - 30A
Intensity MAX.	30A@100%

Technical	
Cutting capacity STEEL	8mm
Cutting capacity STAINLESS STEEL	5mm
Cutting capacity ALUMINIUM	8mm
Compresor	Incorporado

Structural	
Weight	20Kg
Dimensions	440x270x350mm
Standards	EN 60974-1 / EN 60974-10 Clase A

Electrical	
Supply Voltage	220-240V 1Ph
OCV	240V
